

STATE OF SOUTH AUSTRALIA.

DIRECT OVERSEA TRADE, 1938-39.

The details of the State's Direct Oversea trade for the month of June having been received from the Commonwealth Statistician, the Government Statist has now completed the grand totals for the year 1938-39 and issues the following brief review.

BALANCE OF DIRECT OVERSEA TRADE. The favourable balance of direct oversea trade is estimated at £6,009,000 (£7,772,000) in British Currency Values or at £7,511,000 (£9,715,000) in Australian Currency. Although there was a big decrease in the value of imports and record quantities for many exports, these factors were more than offset by the lower prices recorded for most of our staple products shipped overseas, particularly wheat, barley and flour, resulting in the less favourable trade balance.

EXPORTS. (Australian Currency Values) totalled £14,822,329 (£19,057,243) a decrease of £4,234,914 or 22 $\frac{1}{4}$ per cent, averaging per inhabitant £24.18.2 (£32.5.3). The value of exports in British Currency was estimated at £11,858,000 (£15,246,000).

EXPORTS - QUANTITIES AND RECORDED EXPORT VALUES PER UNIT. The 20 items in the following table represent nearly 97% of the Grand Total Value of Exports for each of the years 1938-39 and 1937-38, and from the table may be seen the principal increases or decreases as regards both quantities and unit values.

RECORDED UNIT VALUES OF EXPORTS. The average prices computed from the recorded export values of the principal commodities reveal that the average prices for the following items were higher than in 1937-38:-

Lamb, Pork, Rabbits, Wine, Apples, Salt and Iron Ore. Lower prices were received for Wheat, Flour, Barley, Lead, Zinc concentrates, Silver, Sheepskins and Eggs in shell.

IMPORTS (British Currency Values) totalled £5,849,142 (£7,473,802) a decrease of £1,624,660 or 21 $\frac{1}{4}$ per cent. The value of imports in Australian Currency was approximately £7,311,000 (£9,342,000) and averaged £12.5.8 (£15.16.3) per inhabitant.
